WORK & LEADERSHIP EXPERIENCE

CLSA Philippines, Inc.

Research Associate, Asian Consumer Goods

Makati, Philippines

May 2021 – January 2022

- Assisted Japan-based senior analyst's coverage of stocks in the Asian consumer goods sector.
- Wrote research reports on macroeconomic and industry-specific trends affecting consumer goods, with readership from investment managers globally.
- Performed financial analysis in Excel to identify investment ideas for use by the consumer goods team.
- Gathered and processed data from financial statements, Bloomberg Terminal, and other databases on behalf of investment management clients and internal analysts.

The Philippine Stock Exchange, Inc.

Business Development Associate, Office of the President

Bonifacio Global City, Philippines

February 2022 – June 2022

- Provided research, product design, and strategic planning for new services at the Exchange.
- Co-led development of platform for a new asset class—proposed scope and roadmap to market; liaised with and evaluated technology providers.
- Created valuation model for the acquisition of a financial services company and presented it to senior management.

PROJECTS

Full Stack Pokémon Trading Website

<https://pokemon-trades-frontend.fly.dev/>

- Developed a social media site for Pokémon trading—featuring user creation and authentication, posting, commenting on posts, liking, post searching, and individual user pages.
- Designed and implemented a REST API backend with **Node.js**, **Express.js**, and **Postgres**.
- Created a single-page application frontend using **React** that allows users to view and make new trades by interacting with the backend API.
